

## Diabetic Retinopathy (Jaypee Gold Standard Mini Atlas)

This mini atlas is a comprehensive guide to the latest developments and current concepts in diabetic retinopathy. Complemented by a photo CD, the book brings readers fully up to date with diagnostic and treatment approaches to this progressive disease. Beginning with an introduction to the epidemiology and pathogenesis of the disease, the text then discusses diagnosis techniques such as optical coherence tomography and fluorescein angiography. The following chapters examine surgical techniques including vitreoretinal surgery, laser hyaloidotomy and laser photocoagulation.
