

## Jason Schmidt: Artists II

Artists II is the second volume of Jason Schmidts ongoing photographic documentation of todays most significant artists. From young to old creative forces, emerging to career-peaking, world-famous or as yet unknown, Schmidts images, captured over a period of twelve years, are an incisive look into the art world of today. Artists II depicts 166 artists, including John Baldessari, Ai Weiwei, Glenn Ligon and Cindy Sherman, in their studios or work environments, showing the practitioners in their most intimate moments?in the process of creation. A revealing text by each artist accompanies his or her portrait; some are literal descriptions of the encounter, others are poetic or enigmatic. Situated between portraiture and landscape, Schmidts photographs show art and artist in constant transformation, and form a comprehensive archive of contemporary artistic practice.
