

Principles and Practice of Anesthesiology

A comprehensive reference work covering the clinical practice of anaesthesiology. This patient-orientated text addresses preoperative medical evaluation, intraoperative anaesthetic management, and postoperative care. A section entitled Concurrent Drugs discusses the interactions of commonly used drugs with anaesthetic agents. The information is presented clearly, in an easy-to-read style, with extensive use of tables, boxed material and illustrations.

LAWBOOK International Lawbook is an initiative of professionals with passion for a better society. It is dedicated to exposing, explaining and expounding law for the purpose of attaining Social Justice in the society. It is a platform where people meet, discuss, analyze and proffer solutions to common issues of mankind.
