

Vanity: Photographs by Scott Caan

Over the past decade, actor Scott Caan has quietly garnered a reputation as an outstanding photographer. This exceptional volume is a celebration of his most recent work. Shooting with a photojournalists eye, Caan captures moments that have a quiet honesty to them and a documentary feel. Caans images also have a unique insight into life as a celebrity, as the books cover image--taken from the top of the red carpet at Cannes (where no photographer has ever been allowed) looking back at the paparazzi below--attests. The title of the book is another subtle nod to his fame. Countering claims that he is simply indulging in a vanity project, Caan has reclaimed the word in full force with this exquisite demonstration of his talent. To me, Vanity was the perfect title. Photography is the one thing I can do where I dont have to answer to anybody y In a sense, it is my selfish way of saying; these are the photographs that I like.
