

Manipal Manual of Medicine for Dental Students

This manual textbook has been written especially for the students of dental sciences who are appearing for their examinations in medicine. In addition, it will also be of immense use to the dental practitioners. The book methodically explains proper history taking and scheme of clinical examination of each system relevant to dentistry-elicitation of clinical signs well supplemented with appropriate clinical pictures, colour diagrams and physiological explanations. Chapters on the theoretical aspects of medicine have been written which are relevant to dentistry. At the end of each topic of medicine special reference is made about the dental significance of the topic so that dental students and practitioners can apply this knowledge in their daily dental practice.

LAWBOOK International Lawbook is an initiative of professionals with passion for a better society. It is dedicated to exposing, explaining and expounding law for the purpose of attaining Social Justice in the society. It is a platform where people meet, discuss, analyze and proffer solutions to common issues of mankind.
