

Techniques in Extracorporeal Circulation, 3Ed

In the years that have elapsed since the publication of the second edition of Marion Ionescu Techniques in Extracorporeal Circulation there have been many advances in technology on the topic, and these are reflected in the contents of this new edition, edited by Philip Kay.

LAWBOOK International Lawbook is an initiative of professionals with passion for a better society. It is dedicated to exposing, explaining and expounding law for the purpose of attaining Social Justice in the society. It is a platform where people meet, discuss, analyze and proffer solutions to common issues of mankind.
