

Rough Guide to Japan

This album offers the listener an eclectic mix of Japanese music. Both traditional classical music and modern pop music are largely eschewed; instead, most of the tracks are what one might call contemporary folk music--urban satirical songs and sales-pitch ditties, country shamisen music from the Northeast, and lots of music from Okinawa, and such. Pretty much all of it is more or less interesting, though to assume that this is a representative sample of Japanese music would be way off. And never listen to this CD if you want a consistent mood...this stuff is all over the place.

LAWBOOK International Lawbook is an initiative of professionals with passion for a better society. It is dedicated to exposing, explaining and expounding law for the purpose of attaining Social Justice in the society. It is a platform where people meet, discuss, analyze and proffer solutions to common issues of mankind.
