

A.mag 07: Buchner Bruendler Architects Fuhrimann Haechler Architects (English, Portuguese and Spanish Edition)

This edition features the work of two Swiss offices, Buchner Brundler Architekten and AFGH (Andreas Fuhrmann and Gabrielle Hachler). Addressing the idea of Swiss architecture as synonymous with accuracy, quality, functional clarity, and having a strong formal identity, it goes a step further to examine its balance between the exceptional quality of craft, manufacturing techniques, and the use of state-of-the-art technology. The architecture is thus imbued with a huge technical rigour and pure formal and sensory awareness. With ten projects by Buchner Brundler and six by AFGH, ranging from small- to large-scale, plus an essay by Jose Manuel Pedreirinho.
